

Brazoria County does not have plan holders lists for various projects as our packages are posted to our website.

In addition, the Purchasing Department does not have a vendor registration system for vendors accessing our packages via our website.

The Purchasing Department will not know the names of the vendors bidding until the bids are received.

If the package dictates a pre-bid or pre-offer meeting, the names of the vendors attending are listed below per project. Please note, only the company names and location are listed.
